

Transformation Training Action Guide

Dr. Elona Sanders

Welcome To All My Fellow Dreamers, Visionary Leaders, Ministers, Coaches, and Entrepreneurs.

If you are looking to come into divine alignment with your true purpose and have more impact in your field, you are in the right place at the right time. And yes, you probably already know that understanding who you are and what you are here to accomplish is vital to your success.

Like you, I was doing my very best to fulfill my purpose. However, I was trapped, living my life in a never-ending cycle of confusion. Mostly I lived my life based on other people's expectations. I allowed myself to adapt to principles and ideologies that were based in legalism and fear. This caused me to live a life of **Self-Denial and Self-Abandonment**.

After many years of confusion and misalignment of purpose, I finally cracked the purpose code! I am here today to share with you what I discovered. (Purpose is easy!)

One of the greatest tragedies you can ever experience is to go through your entire life and not acknowledge your authentic SELF. You must allow your true glory to be seen in this world.

This is your defining moment! You are here today because you know that you don't have any more time to waste following the pack. It's time to come into the full expression of who you are and live the life you are meant to live!

To Your Spiritual Success,

Elona Sanders

Here's What Awakening Divine Purpose Can Do For You:

- **Clear Up Confusion And Allow Your Vision To Come Into Focus!**

Knowing your Purpose will instantly clear up confusion and allow divine vision to come into focus. True Purpose is a **guiding force**. Like a needle on a compass, it will set your course to move you forward in life. You can finally "**STOP THE MADNESS**" of going around the same cycle over and over again. Clarity of purpose will ignite your vision and accelerate your goals!

- **Help You Find Your Authentic Voice And Communicate Your Message!**

Discovering your purpose will help you to acknowledge and embrace your gifts, talents, and unique abilities. Knowing your purpose will help you find your voice and elevate your visibility so that your true message can be heard and received. Your tribe is waiting for you. You are the answer to someone's prayers!

- **Activate Divine Favor!**

Knowing and Communicating your purpose will elevate and accelerate you in ways logic, education, training, hob-knobbing, brown-nosing, or sucking up, etc., cannot compete! When divine purpose is activated, you will begin to feel like you are on the **right path and all things are working together for good**. Your accomplishments will become easy and effortless. In other words, you will experience more sweatless victories!

- **Help You Make The Shift From Doing To BEING!**

Awakening your divine purpose will help you to **BE** who you truly are. You will live according to divine vision and guidance from within rather than from vision without.

The Reasons Behind Confusion Of Purpose

One of the reasons there is so much confusion around purpose is because many people believe they were created to travel only one path. They are afraid of **missing the mark or making a mistake**.

Another reason why there is so much confusion around your purpose is that there is residue from faulty messages lingering in your consciousness.

Yet another reason for the confusion around purpose is that you think of purpose in terms of tasks or projects only. In doing so, you will fall prey to comparing what you are doing with what you see others accomplishing.

When you look around at others and judge yourself harshly, you may despise what you are doing as small and insignificant. Remember, everything big was once small!
