## **Prosperity and Wealth Affirmations to Empower Your Life!**

Living an empowered life involves putting several principles into operation. One of the Kingdom principles given to us is to be transformed. The way to accomplish this is to transform your mindset from lack, limitation, doubt, and fear, into a mindset filled with confidence, courage, and faith. Repetition is a simple technique you can use to renew or reprogram your mind on a deeper subconscious level.

Initially, when you begin affirming yourself, you may not believe what you are saying. You may not feel good about what you are saying. Continue to say it!!! What is happening on a deeper level is what you are declaring and envisioning does not match the limited image you have held of yourself for so long.

Remember, all Affirmations, Declarations, and Decrees should be personal, present, and positive. It takes 21-30 consecutive days to create a new behavior. Set aside a specific time in the morning and evening to do your affirmations. For the best results, repeat them several times a day.

When confessing these affirmations, you must also attach emotion to what you are saying. Feel the joy, excitement, and enthusiasm that should accompany your words. Remember confession + emotion (feeling and seeing it) will create transformational results.

The most powerful declarations are the ones you create for yourself. They should begin with, I AM, I CAN, I NOW...., etc. I have listed a few below to get you started.

These Declarations/Affirmations will reinforce your "I AM" consciousness. Reminding you that you are a wonderful and amazing creation! Highlight the ones that resonate with you and start with those. Remember, the affirmations you create yourself will be even more powerful. Play these on repeat at night for 30 days to create a deeper subconscious programming.

## **BE TRANSFORMED BY THE RENEWING OF YOUR MIND!!!**
